Press release about the results of the the last MosLeather Trade Fair Exhibition.

MosShoes Technology and MosLeather - the two exhibitions for the sectors supplying the footwear, leather goods and tanning industries were held on January 30 - February 1, 2002. International Exhibition of Components & Equipment for Footwear & Tanning Industry and International Exhibition of Leather, Leather Goods & Leather Garments ran simultaneously in Gostiny Dvor -cultural and business center - a traditional venue for international events organized, organized by MosShoes.

This edition recorded a good flow of visitors, thus confirming the growth in the domestic production of footwear and leather goods, which resulted the in increased demand for quality components, leather and equipment. Assembling 100 exhibitors on an exhibition space of over 1 300 square meters exhibitions actually reached the established goals: a good presentation of participants from the footwear technology sector, leather goods and leather garments relating sectors: tanners, chemicals, mechanics, components and others.

Trade members from Italy, Russia, Turkey and other countries exhibiting at MosShoes Technology and MosLeather acknowledged the success of the second edition: there was a good number of specialists at their stands looking for materials and technology for their production. There was a visible increase in technology sector of the fair: Electromodule, Ileri Deri, Famas Ayakkabi, Hardo and other companies brought operating machinery to the fairground

The Italian collective exposition was organized in cooperation with EX-IT - promotion agency of Macerata Chamber of Commerce and Piceno Promozione - special promotion agency of Ascoli Piceno Chambers of Commerce – the two most important provinces of Italy for the shoes sector.

Association UNAC/UNIC participated in the work of the exhibition with the information stand. Representatives of ASSOMAC and representatives of tannery associations of Santa Croce sull'Arno and Ponte a Egola visited the exhibitions.

Exhibitors reported on interesting contacts made at the fair with manufactures from Russia and the CIS, which, hopefully, laid the foundation for profitable cooperation in future.

The next edition for MosShoes Technology and MosLeather is scheduled for July 3-5, 2002.
